

## TATTOOING NOW A FAD.

Resorted to by Travelers as a Means of Identification.

## FEMININE LEGS ORNAMENTED.

Men and Women of Refinement Now Submit to the Operation, Which is Painlessly Done by Electricity. Some Queer Designs Selected—Women Who Have Their Lips Tattooed With Carmine Ink.

Philadelphia Record.

With the big number of railroad accidents which have marked the Columbian year there has been a widespread boom given to the art of the tattooer. There has been such a large percentage of unidentified dead among those killed in the smash-ups on the railroads of the country during the past few months that it has had a remarkable effect on the traveling public. Men and women who a year ago would have shuddered at the mere suggestion of having the point of a tattooing needle touch their skin, are having their names, monograms and even their crests tattooed upon their bodies. And they all say that they have been tattooed in the belief that the marks made by the needles will be the best means for the identification of their bodies should they meet death away from home and friends.

But there is another class of people, who, caught by the popular led, are having emblems of secret societies and fraternalities to which they belong marked on their skin. Many of the best known college men of the country carry the insignia of their fraternity worked upon their arms. It is among the drummers and members of the theatrical profession, however, that the tattoo man finds his greatest number of patrons. They spend a large portion of their lives in railroad cars, their danger from death in wrecks is greater than any other class of people, excepting railroad men, postal clerks and express messengers, and the tattooer is reaping a rich reward of coin from them.

With the spread of the tattooing fad in all parts of the United States the work with the ink and needles has been made well nigh painless. The tattooing art has kept step with the march of progress in other directions, and a brand new method of puncturing the skin has taken the place of the old. Instead of the laborious work of early days, an electric tattoo machine has been invented. Where it required an hour in the old-fashioned way to tattoo a name or a figure, the electric machine does it in a few minutes. The inventor of the machine is in this city, and yesterday he chattered interestingly of tattooing in general and the prevalent craze in particular. He is Professor O'Reilly, probably the best-known tattooer in either the United States or Great Britain. Many of the most noted tattooed men and women who have been on exhibition on both sides of the Atlantic are examples of his skill.

"I have tattooed thousands of persons, both in this country and England," he said, "but at present the craze exceeds anything I have ever experienced during the last twenty years. Most people believe that only sailors and a vulgar class in general have tattoo marks put upon them. That is true, in many instances, by far the largest number of those that I am tattooing now are men and women of intelligence and refinement. The only explanation that I can make for this is that the danger of being buried among the unknown dead in case of a railroad, steamboat or other accident has been so strangely emphasized during the present year that men and women who travel much very wisely have the needles and ink place sure identification marks upon their bodies.

"Many of those tattooed, the ladies especially, have the work done with artistic surroundings. Men generally want to be tattooed on the arms, while the women almost invariably have the decoration placed on the lower limb. I recently tattooed a serpent in brilliant colors around the leg of one of the best-known comic opera prima donnas of the country. It bears her name in delicate letters. Another popular actress had me place a parter in vivid hues below the knee of her left leg, and tattoo upon it 'Tom,' the name of her sweetheart, and one of the most prominent juvenile men in the profession tattooed the insignia of Delta Kappa Epsilon, one of the strongest of college fraternities, upon the arm of almost every member of the society. George Gould is one of the young men upon whose arm I placed the symbol of the fraternity.

"Almost every day I put secret society marks on the arms of patrons. Two months ago I was surprised by a call from a tramp. He wanted a peculiar mark by which he was known to knights of the road tattooed in the palm of his right hand.

"A peculiar practice among vain women is to have their lips tattooed with carmine ink to keep them a perennial red. Quite a number of nice young men come to me to have their lips and also their cheeks tattooed with a rosy tint. There are many persons who believe that even diseases can be removed by having the body from the neck to the heels tattooed. The carbon in the ink seems to have a beneficial effect. Carbon is death to poisonous gases or microbes in the body."

## POLITICAL SENSATION

In Iowa—A Democratic Leader Bolts His Ticket, and Will Support Joseph.

DES MOINES, IOWA, Oct. 2.—The greatest political sensation of the Iowa campaign this fall was sprung this morning by Senator L. E. Bolter, of Harrison Scott, of the Populist committee, announces that he has bolted the Democratic ticket, and will support Joseph for governor. Senator Bolter has been a Democratic leader in the Iowa general assembly for sixteen years.

Has a Call From London.

NEW YORK, Oct. 2.—Rev. Amory H. Bradford, D. D., for twenty-three years minister of the First Congregational church at Mont Clare, N. J., one of the editors of *The Outlook*, and widely known as preacher and author, has received a unanimous call to the pastorate of Westminster chapel, London, the largest Congregational meeting house in the world. Dr. Bradford has not yet signified his intention concerning the call.

Siam and France at Fence.

PARIS, Oct. 2.—M. De Villiers, the minister of foreign affairs, has received a dispatch from M. De Villiers, confirming the Renter telegram company's report as to the settlement of the dispute between France and Siam. M. De Villiers informs the French government of the

happy issue of the negotiations with Siam, and adds that the treaty with that country was signed yesterday. The French special envoy in conclusion makes the significant remark that France will occupy Chantabun, on a river near the Gulf of Siam, and only 175 miles from Bangkok, until all the provisions of the treaty are carried out.

## RIO IN A TIGHT PLACE.

Rebel Fleet Still Bombarding—Provisions Scarce at Bitter Prices.

LONDON, Oct. 2.—A private cable message received in this city to-day announces that the rebel fleet at Rio de Janeiro reopened fire upon the Brazilian capital yesterday morning, and that the bombardment was continued throughout the day.

The same cable message announces that though the foreign ministers at Rio, backed up by the commanders of the foreign war vessels at Rio, have for a long time past done everything possible to avert further hostilities between the insurgents and the government forces, and that in spite of the fact that these friendly efforts have been directed continuously towards both sides in the dispute, failure to induce the opposing factions to come to an agreement has resulted in more damage to Rio from the rebel guns and in more loss of life. The cablegram referred to confirms the statements previously made in these dispatches to the effect that provisions at Rio de Janeiro are getting so scarce that, to use the exact words of the message, "famine prices prevail" at the Brazilian capital, in spite of efforts made by the government to secure food in the neighborhood of the capital.

## French Socialist Programme.

PARIS, Oct. 2.—Deputy Millerand, at a banquet yesterday evening, declared that the socialists had accepted the Franco-Russian entente as a counterpoise to the dreibund, and as a mutual assurance to maintain peace. France, the deputy continued, was neither under Russia's protection or under any obligation to her. The socialists believed, M. Millerand added, as good patriots, that by means of peace the inherent justice of things would yield all that was necessary, legitimate and satisfactory. The meeting ended with cheers for the socialist international.

## French Mining Situation.

LONDON, Oct. 2.—The Paris correspondent of the *Times* telegraphs that the tension in the mining district is becoming dangerous. The first bloodshed is recorded at Decourt, where in resisting the orders of the gendarmes to disperse several miners were trampled under the horses' feet, cut with sabres or prodded with lances.

## Panic in a Church.

WARSAW, Oct. 2.—During the service at a synagogue at Gora-Calvaria yesterday, a false alarm of fire caused a panic and a stampede in the building. During the rush for the doors eleven women were injured, and a child was suffocated.

## Tonkin Delta Flooded.

LONDON, Oct. 2.—Dispatches to the *Times* from Paris says that the delta of Tonkin was entirely flooded by a hurricane recently, which swept away many buildings. A number of their occupants escaped on rafts, but many were drowned.

## Bismarck's Condition.

LONDON, Oct. 2.—A Berlin dispatch to the *Times* says that the Hamburg *Nachrichten* asserts that Prince Bismarck is not yet strong enough to bear the journey home.

## Sarah's Idea of War.

PARIS, Oct. 2.—Sarah Bernhardt has returned here from South America. She was in Rio de Janeiro during the bombardment of that city by the rebel fleet, and says it was "simply exquisite."

## Small Bank Assigns.

NASHVILLE, TENN., Oct. 2.—The Bank of Carroll, at Huntingdon, made an assignment yesterday to A. M. Lee, trustee, and failed to open its doors this morning. It was a state institution organized a few years ago with J. P. Priestly, president, and R. E. Trulow, cashier. The capital stock as advertised was \$30,000, the amount subscribed \$15,000, with \$8,500 paid up. The cash assets are \$300 and the liabilities \$11,500. Trulow made an assignment of certain property, and this, with notes and unpaid capital stock, runs the assets up to \$23,000. Recent withdrawals led to the suspension. The suspension will not affect anybody except a few stockholders.

## Two Tramps Killed.

CINCINNATI, O., Oct. 2.—A south-bound fast freight train on the Cleveland, Cincinnati, Chicago & St. Louis railway, ran into three heavily loaded flat cars, which had been carelessly left there by a local freight crew this morning, near Edgemont, causing an ugly wreck, and killing two tramps and fatally injuring two others. The dead are: Joseph Jordan, Columbus, O.; James Murphy, Columbus; fatally injured, Frank Broderman, Van Wert, Ohio; Joseph Blanch, the telegraph operator at Edgemont; R. M. Hughes had a leg broken.

## Contract Was Illegal.

PITTSBURGH, PA., Oct. 2.—In the United States court to-day Judge Acheson handed down an opinion against the Union Switch Signal Company, in the suit brought by the Johnson Railway Company to test the validity of a contract made by Yeomans with the defendant. The judge held that the contract was illegal; that there was an infringement, and that the plaintiff could secure an injunction and accounting.

STATE OF OHIO, CITY OF TOLEDO, } ss.  
LUCAS COUNTY, }

FRANK J. CHENEY makes oath that he is the senior partner of the firm of F. J. CHENEY & CO., doing business in the city of Toledo, county and state aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of CATARRH that cannot be cured by the use of HALL'S CATARRH CURE.

It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents a box. For sale by Logan Drug Co.

## CLEVELAND'S ATTITUDE.

He Will Listen to No Compromise Proposals Until a Vote is Reached.

WASHINGTON, D. C., Oct. 2.—Mr. Carlisle has again consulted with President Cleveland on the compromise terms, but with no satisfactory result, says a morning paper.

Mr. Cleveland is fully conscious that the attitude he has assumed is heartily endorsed by all the business interests of the east. It is understood that the reply he has authorized Mr. Carlisle to give to the advocates of compromise is that he will listen to no compromise involving the further purchase of silver until a supreme effort has been made by the friends of unconditional repeal to avail themselves of their conceded strength as a majority of the senate, and to force a vote. If the effort fails, then he may listen to compromise terms, as the less of two evils.

The silver senators assert that they are certain of support at the critical moment and Senator Voorhees' failure Saturday to secure sufficient aid from his own side to put down filibustering by forcing the filibusters into continuous sessions from noon until midnight explains their otherwise inexplicable attitude of defiance.

## THREE MEN FATALLY WOUNDED

In a Chase After a Murderer—The Latter Fled With Lead.

OAKLAND, CALA., Oct. 2.—A desperate shooting affray occurred here last night in which three men were fatally wounded and a fourth seriously hurt. A crowd of citizens joined in the chase of a would-be murderer, sending after him a fusillade of shots in the crowded streets. William Green and Thomas Mullen were standing outside of a saloon on the corner of Seventh and Broadway, when Peter Butts, an acquaintance of Green's, passed by. Green accosted Butts by asking him when he got out of jail. After a flat fight had begun and shot Green, Butts drew a revolver and shot Green, who fell to the curb. Policeman Scanlan then attempted to arrest Butts, but, firing at the officer as he ran. One of Butts' stray bullets hit a street car conductor by the name of W. E. Beeny, fatally wounding him. Another shot struck in the body of a man whose name was unobtainable, inflicting a serious wound. Other policemen and a crowd of citizens started in pursuit of Butts. Many in the crowd had revolvers, and over twenty shots were sent after the fleeing fugitive. When he was finally captured it was found that five bullets had entered his body. Green, Beeny and Butts cannot live.

## A Ghastly Find.

INDIANAPOLIS, IND., Oct. 2.—Patrolman Bacon made a ghastly find about 3 o'clock this morning in the alley back of a saloon at 33 East Market street. It was the body of a man about 35 years old, who had evidently been murdered after midnight. The hat was crushed in, and the face was covered with blood. The police think the weapon used was a sand bag. The dead man is yet unidentified. On the body was found a receipt issued by the Germania Lodge U. A. O. D., to Christian Baier, and on a fly leaf of a book was printed the name of Taylor Owens. The man was well dressed in a light suit. The body was removed to the morgue.

## Will Spend Autumn in the Country.

WASHINGTON, D. C., Oct. 2.—Although the time has not been definitely fixed it is understood that within a few days the President and Mrs. Cleveland will take up their quarters in their country home on Woodley Lane road, in the suburbs of this city. Preparations have been in progress there to receive them. The President and his wife look forward with much pleasure to spending the autumn days in the country.

## The Newark's Movements.

WASHINGTON, D. C., Oct. 2.—Information has reached the navy department that the cruiser Newark, which left New York city several days ago Rio de Janeiro, has arrived at Barbadoes. She will leave there as promptly as possible for Rio, and ought to arrive there in two weeks. The department is also informed that the United States steamer Baltimore has arrived at Algiers.

## Yuma Uprising Crushed.

WASHINGTON, D. C., Oct. 2.—The uprising among the Yuma Indians in Southwestern California has been put down and Miguel, the renegade chief, and several of his followers, are under arrest. This puts an end to all trouble on the Yuma reservation. This information was telegraphed to the interior department to-day by Indian Agent Estrallina.

## Was Shot Dead.

WASHINGTON, D. C., Oct. 1.—John E. Shoemaker, white, shot and instantly killed Thomas Matthews, colored, this afternoon on the Tenallytown road, about a mile from the city limits. The two men were in a party of four that had been drinking together.

## Bessemer Trust Acquisition.

KNOXVILLE, TENN., Oct. 2.—It is reported here that the Bessemer ore trust has secured control of the magnetic property at Cranberry, N. C. The price is said to be \$1,000,000.

For a clear head and steady nerves 12 Take Bromo-Seltzer—trial bottles 10c.

Tickets will be good for continuous passage in either direction with final limit for return passage November 5, 1893. For rates of fare, time of train and other information, inquire of ticket agents, Ohio River railroad, or write W. J. Robinson, general passenger agent, Parkersburg, W. Va.

Take the Baltimore & Ohio to Chicago.

Excursion tickets now on sale via the Baltimore & Ohio at reduced round trip rates, good returning until November 5, 1893. Trains leave Wheeling, eastern time, at 6:50 a. m. and 1:25 p. m. daily, and at 3:50 p. m., except Sunday. For sleeping car accommodations and other information enquire of Baltimore & Ohio agents.

## CATARRHAL NEURALGIA

AFFECTING PRINCIPALLY THE STOMACH.

Endorsement of Treatment and Cure by a Well Known Young Lady of Wheeling.

"Neuralgia of stomach."  
"Pains very severe at times."  
"Would almost lose consciousness."  
"Gagging and vomiting."  
"Nausea stopped up."  
"Mucous dropping in throat."  
"Severe pain over eyes."  
"Ringing in ears."  
"Pains through chest."  
"Dry hacking cough."  
"Feet and ankles became swollen."  
The above were the distressing symptoms in Miss Etta Evans' case when she first consulted Dr. Copeland, Bell and Davis. Miss Evans, who resides at 2101 Chapline street, and is a stenographer for the Joseph Speidel Grocery Company, gives her statement for publication as follows: "Anyone suffering from catarrh and stomach trouble as I have should give Dr. Copeland, Bell and Davis a trial. I have recommended their treatment to others and still recommend it, for I have been greatly benefited, and could I have only continued the treatment, feel sure I would have been permanently cured."

MISS ETTA EVANS, 2101 CHAPLINE STREET.

"My trouble began eight years ago with neuralgia of the stomach. The pains were so very severe at times that I would almost become unconscious, and one who has ever had it knows the pain one suffers. Before I took their treatment my nostrils stopped up so tight I could hardly breathe through them; had ringing noises in ears like steam escaping from an engine, mucus dropping from head to throat, ending in gagging and vomiting. I would vomit pain every eye, pain through center of chest, dry, hacking cough, and my feet would often swell so I could not wear my shoes."  
"I had heard others who had taken treatment from Dr. Copeland, Bell and Davis speaking of it with the greatest praise, and am only sorry now that I did not take the treatment long ago, but better than the very best dose of medicine and have improved steadily ever since. I feel well in many ways and could I have continued would soon have a permanent cure. I owe it all to the treatment I received from these doctors."

Drs. Copeland, Bell & Davis treat successfully all curable diseases at 121 Main street, Wheeling, W. Va. Office hours, 9 to 11 a. m., 2 to 5 p. m. and 7 to 9 p. m. Sundays, 10 to 12 a. m. and 2 to 4 p. m. Specialties—Catarrh and all diseases of the eye, ear, throat and lungs; dyspepsia, indigestion, nervous diseases; skin diseases cured.  
Many cases treated successfully by mail. Send 2-cent stamp for question blank.  
Address all mail to  
DRS. COPELAND, BELL & DAVIS,  
121 Main street, Wheeling, W. Va.

## \$5 A MONTH.

ALL DISEASES TREATED AT THE UNIFORM RATE OF \$5 A MONTH. REMEMBER THIS INCLUDES CONSULTATION, EXAMINATION, TREATMENT AND MEDICINE FOR ALL DISEASES AND ALL PATIENTS.

## Necromancy Unveiled.

Hermann, in *Lippincott's*.

Another reason why I can afford to surrender the outlines and explanations of the following tricks is that I am not afraid of anyone who reads this article becoming my rival. Theory is one thing, practice another, and it would require weary months for the quickest-witted and most dexterous to attempt to imitate the performance of these tricks and illusions, even when the methods are minutely explained. Even should any of my readers, visiting my receptions, proclaim in public my methods, discovered by this article, I am prepared to confound them by proving their mistake, for I perform the same trick in a dozen different ways. Therefore the skeptical may rest assured that the explanations here given are accurate.

I must first premise that palmistry is the absolute requirement of every magician. By this term I mean the manual science illustrated in the appearance and disappearance of coins, cards, and small articles, and their reproduction again in the most unlikely places, such as the ears, hats and pockets of the spectators. No defined rules that have ever been written will make one a skillful palmist. Natural aptitude, quickness of the eye and motion, certain formations of the hand, and constant practice are the necessary qualifications. I have taught many amateurs this art, and many of my students give a creditable parlor entertainment. While it would be simply impossible for any one to become a necromancer without a knowledge of this science, the perfection of it is but the beginning of magic. Tone, touch and brilliancy are the qualifications of a good pianist. They are acquired only when the laborious practice of exercises and scales has been exhausted. So the magician is evolved from the practice of palmistry. With this understood, the explanation of sleight-of-hand illusions will be best appreciated.

## Scheme of an Observant Tond.

Ulica Observer.

"I have heard and read of a good many tough fish stories," remarked the angler last evening, "but for a change I had a toad story given me the other day that possibly may be true, as it was claimed to be. The story as told was that a brood of chickens was fed with moistened meal in saucers, and when the dough soured a little it attracted large numbers of flies. An observant toad had evidently noticed this, and every day towards evening he would make his appearance in the yard, hop to a saucer, climb in, and roll over and over until he was covered with meal, having done which he awaited developments. The flies, enticed by the smell, soon swarmed around the scheming batrachian, and whenever one passed within two inches or so of his nose his tongue darted out and the fly disappeared. The plan worked so well that the toad made a regular business of it."

## Incurable.

New York Advertiser.

Oscar Wilde is running more and more to tomfoolery. He insists now that butchers should not offend taste by exposing their viands for sale, but should use photographic samples in trade. He thinks that human longevity would be increased if people would sleep under coverlets delicately attuned to their shade of hair and complexion. He has also expounded the doctrine that women who wear mauve colors are dangerous and should be shunned. He has a theory, also, that women who have red hair are more to be trusted than women who have green eyes and blue hair. If Esthete Wilde keeps on he may in time qualify himself for permanent board in an asylum for incurable idiots.

The standard blood purifier, strength builder and nerve helper is Hood's Sarsaparilla. Insist upon Hood's, because Hood's Cures.
